

Welcome to Wikkkelwurms

June 2015

STAR PUPIL

When **Leandro Smith** started here with us it was as if a little bird had been set free.

He was not used to being part of a group and had to learn to adapt to our rules and routine.

He has now learnt how to control his behaviour (most of the time) and has crept into our hearts. We are so proud of him.

Toe **Leandro Smith** by ons aansluit was dit asof 'n voeltjie uit sy hok gelaat word. Hy was nie gewoond daaraan om deel te wees van 'n groep nie en moes aanpas by die reëls en rotine. Hy het vinnig geleer om sy gedrag te beheer en het diep in ons harte ingekruip. Ons is baie trots op hom.

Stimulation Tip ~ Stimulation Tip

The 5-6 year old children are learning about the numbers 0-5. Let them practice writing these numbers at home like the example below:

012345

Die 5-6 jarige groep kinders is besig om nommers 0-5 te leer. Laat die kinders oefen om die nommers te skryf by die huis, soos voorbeeld hierbo:
