STAR PUPIL

Phelokazi is ready for Grade 1 next year. She can recognize and recall numbers 0 -10 in Afrikaans, English and in Xhosa. She also knows her colours and basic shapes and is practicing very hard to write her name correctly. She also communicates very well in Afrikaans. She even corrects the Afrikaans-speaking children when they get something wrong!

CHILDREN GOING TO GRADE 1 IN 2015:

- Ayabonga Makhaya
- Phelokazi Tata
- William Isaacs
- Marsilino Bernades
- Mequin Tolman
- Veronique Plaatjies
- Lee-Annchen Janklaas
- Leticia Saaman

All the children going to Grade 1 next year must keep practicing to write their names and revise numbers (0-10), shapes (O□Δ□) and colours.

Al die kinders wat volgende jaar Graad 1 toe gaan moet gereeld oefen om hulle name te skryf en ook om hulle nommers (0-10), vorms (O□Δ□) en kleure te hersien.

I would just like to wish all the children who are going to 'big school' next year the best of luck. I'm sure they'll hold our name up high in the community just like our ex-pupils have.
