

# Welcome to Wikkelwurms

March 2015

## Star Pupil

Ricardo has made great progress since he started at Wikkelwurms. He was a very sick little boy who crept into our hearts. He is now a healthy, active little boy who keeps us on our toes.

Ricardo het baie vordering gemaak vandat hy met Wikkelwurms begin het. Hy was 'n baie siek seuntjie gewees en het diep in ons harte gekruip. Hy is nou 'n gesonde, aktiewe seuntjie en hou almal op hulle tone.

## Stimulation Tip

In order to develop your child's **LARGE MOTOR SKILLS, CONTROL, COORDINATION and STRENGTH**, physical play is very important. A parent can lead the way at first and child follows: jump, hop, run, crawl, climb, side step, zigzag, walk and balance. Child can then be the leader and parent follows him/her.

Vir jou kind om sy **GROOT MOTORIESE VAARDIGHEDE, KONTROLE, KOORDINASIE en KRAG** te ontwikkel is fisiese spel baie belangrik. 'n Ouer kan lei en die kind volg: spring, hardloop, kruip, klim, loop en balanseer. Die kind kan dan daarna die leier wees en die ouer volg hom/haar.

## Stimulasie Wenk

You have **BRAINS** in your **HEAD**.  
You have **FEET** in your **SHOES**.  
You can **STEER** yourself any **DIRECTION** you **CHOOSE**.
